the main claim",

line between lines 26, delete "Advantages of the
Invention" and replace with -- Summary of the Invention

Accordingly, it is an object of present invention to provide an
electrical device which avoids the disadvantages of the prior art.

In keeping with these objects and with others which will
become apparent hereinafter, one feature of present invention resides,
briefly stated, in an electrical device which has a printed circuit board; an
electronic circuit disposed at least in part on said printed circuit board and
having power components each provided with an arrangement for heat
dissipation; a housing frame provided with a plurality of ribs; housing frame
walls, said ribs being joined to respective ones of said housing frame walls
and are offset, said power components having heat-carrying housing parts
kept in thermal contact on said ribs; a heat-dissipation housing bottom, said

housing frame is joinable to said heat-dissipating housing bottom by thermal contact, said printed circuit board resting on a side of said housing frame which is opposite to said housing bottom.

When the electrical device is designed in accordance with the present invention, it --,

line 27, delete in its entirety,

line 28, delete "defined by the characteristics of the body of claim 1".

Page 3, lines 2-9, delete in their entirety and replace with -- The novel features which are considered as characteristic for the present invention are set forth in particular in the appended claims. The invention itself, however, both as to its construction and its method of operation, together with additional objects and advantages thereof, will be best understood from the following description of specific embodiments when read in connection with the accompanying drawings.

BRIEF DESCRIPTION OF THE DRAWINGS

The sole drawing Figure --

line 10, delete "with the sole drawing figure, which",
